

SPECIALTY SHAPES

Please specify any special requests on your order form. Framed specialty items require an extra 20% surcharge. All specialty items can be routed at no extra charge. Specialty items any length greater than 80" will require a divider rail. All specialties available with horizontal louvers instead of sunburst pattern.

Regarding templates for arched panels, please mail templates to AHD at the time of order placement. Templates must be on brown butcher paper, rolled and shipped in a mailing tube. This procedure keeps the integrity of the actual sizes of the arch sizes and protects the template from damage.

CIRCLE
A classic shape, these shutters offer a moderate louver rotation.

EYEBROW WITH LEGS
Square sides, with a slight radius to a full radius top. Side louvers have almost full rotation.

OVAL
Louver tilt is 90 degrees with this product.

HALF CIRCLE SUNBURST
These are true arches with almost total rotation of the louvers.

RAKE TOP
Adds a finished look to specialty applications.

ELONGATED EYEBROW ARCH
Rotation of louvers is limited on both ends, but offers almost full rotation of the louvers in the center.

	MIN. WIDTH	MIN. LENGTH	MAX. WIDTH	MAX. LENGTH	PAINTED	STAINED	FRAMES	PRICING
